### **Specification**

The Examiner objected to the title of the invention because it is not descriptive. The Examiner also objected to the specification because the priority information is not updated. Applicants have amended the specification accordingly.

application that issued as the patent as long as the divisional was filed before the issuance of the patent. The present application is a divisional application filed on March 3, 2002 and U.S. Pat. No. 6,440,407 issued on August 27, 2002. The claims of the application U.S. Pat. App. Ser. No. 08/764,114 (now U.S. Pat. Therefore, a rejection of the claims under the judicially created doctrine of double patenting over claim 1 of U.S. Patent No. 6,440,407 is improper.

Applicant respectfully requests reconsideration of the application in light of remarks. Applicant requests that this case be allowed and pass to issuance. Applicants believe that this response constitutes a complete response to the Office Communication mailed March 30, 2005.
